DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-18, 20-24 and 26-32 are rejected under 35 U.S.C. 103(a) as being unpatentable over Takigawa et al. US 5,026,496.

3. The rejection set forth under 35 USC 103 in the paper mailed 6/17/08 is deemed proper and is herein repeated.

4. Applicants remarks filed 12/17/08 have been fully considered but have been found not persuasive.

5. Specifically, applicants point out that the component D) as disclosed in Takigawa is a surfactant. It is alleged that this component is outside the scope of the claimed compound (D). Applicants argue that the compound is not an alcohol or an amine falling within the scope of the claims. This is not persuasive. The claim recites "a glycol." Column 4 lines 25-30 recite glycols that are seen to fall within the scope of the claimed glycol. It is maintained that when the glycols are reacted they continue to have the active hydrogen and would fall within the scope of the claimed "a glycol." As such the claims remain prima facie obvious.

Claim Rejections - 35 USC § 112

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 1796

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 1-18, 20-24 and 26-32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

8. The 112 rejection set forth in the paper mailed 6/17/08 is deemed proper and is herein repeated. Applicants argue that the specification provides detailed descriptions of the species and one would not confuse the scope of the claims. This is not persuasive. It is improper to read limitations into the claims from the specification. The claims remain indefinite given the overlap in scope between the claimed elements.

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
